Declaration

We, Ethicon Endo Surgery LLC (475 Calle C, Guaynabo, Puerto Rico, 00969 USA) hereby declare that in the United States, a notary public is a person appointed by a state government, e.g., the governor, lieutenant governor, state secretary, or in some cases the state legislature, and whose primary role is to serve the public as an impartial witness when important documents are signed. Most states require the notary seal to contain the notary public's name, the words "notary public," and the date on which the notary public's commission expires. In Ohio, the Notary commission lasts five years, except for attorneys licensed to practice law, at which point the notary must renew his or her commission with the Secretary of State. Just because the commission seal date has expired, however, doesn't mean the notarized document is invalid. As long as the notary notarized the document before the commission expiration date, the document is valid. Hence, we assure you that the *Proprietary Certificate & Agreement for Representation* is a valid document.
